A GOLF GIRL'S DREAM JEWELLERY CHARMS ITS MARKET

Australians have fallen in love with charms. The fashion accessory has taken off in Australia, making it one of the largest international markets for charm jewellery.

Surreal has created a captivating line of stunning jewellery, designed and handcrafted in Sydney. The company produces an eye-catching range of necklaces, bracelets and charms, which offer versatile combinations to suit personal style. The necklaces and bracelets are beautiful pieces that are designed to carry Surreal's unique charms or these can be worn as stand-alone pieces.

Made from 9ct or 18ct yellow, rose and white gold, Surreal jewellery delivers quality charms, many featuring beautiful stones and enamel finishes, crafted to last a lifetime of special moments. The collection is sourced using precious gems and fine gold, resulting in a magnificent detailed collection of stunning and complimentary jewellery pieces.

Surreal is the creation of husband and wife team, Isa and Annet who, after working on fine jewellery design for over 40 years, have come up with this new appealing creation, combining their vision and experience.

Suitable for both day and evening wear, the identifiable Surreal collection encompasses a range of elegant and intriguing fashionable charms, including signs of the zodiac, memorable birthstones and Australian icons. The range is ever evolving with more than 100 charms already available and many feature a proprietary interlocking system that holds the charms in place.

Recommended retail prices are – charms from \$116, bracelets from \$1,400, necklaces from \$3,000. 18ct prices are available on request.
